Subject: Sites 12, 68, 75, 76 & 87

I'm agree with the NFA recommendations for these sites; however, the following typos should be corrected before I send you a letter:

Site 76, Table 1-4, "Soil to Groundwater Soil Screening Levels" column:

Comment: Units are mg/kg. The footnote number is (5).

Site 75, Table 3-4:

Comment: Same as Site 76.

Site 75, Table 3-5:

Comment: The "Soil to Groundwater" column does not apply here and should be deleted.

Site 68, Table 1-4:

Comment: Same units error as Site 76.

Make those corrections and I'll send you a letter.

Dave
